Raw Milk Handling: 1,00,000 LPD (Lean) · 1,50,000 LPD (Flush)

Tetra Pak · Alfa Laval · Nichrom · Thermax

Managing Partner - Dairy Business

Build, Lead & Grow | partnership@samagrafood.com

INVITATION FOR EXPRESSION OF INTEREST

Managing Partner - Dairy Business.

Samagra Food Private Limited is a promoter-driven company that has established a modern dairy processing facility at Bahjoi, District Sambhal, Uttar Pradesh. The plant has a raw milk handling capacity of **1,00,000 litres per day in the lean season** and **1,50,000 litres per day in the flush season**, and is equipped with processing and packaging systems from **Tetra Pak, Alfa Laval, Nichrom and Thermax**. All major statutory approvals - FSSAI Central License, UPPCB Consent to Operate, Fire & Life Safety and Factory License - are current, and a core production, quality and procurement team is in place.

We now intend to appoint an experienced **Managing Partner** - a senior dairy professional, an entrepreneurial leadership team, or an Operations & Management company - to independently build, operate and grow the dairy business as a long-term strategic associate. **We are not hiring a manager. We are inviting a partner.**

1,50,000 L PEAK HANDLING / DAY	5,00,000 L COLD STORAGE (9 NOS.)	5.7+ Acres CAMPUS · ~50% OPEN	~160 km FROM DELHI-NCR
--	--	---	--

The Partnership Model

WHAT THE COMPANY BRINGS	WHAT THE MANAGING PARTNER LEADS
Modern dairy plant, machinery, land, buildings & utilities · all statutory licences and approvals · financial management, accounting, taxation, payroll, secretarial support, banking coordination, legal & statutory compliance · general administrative and commercial support.	Establishing commercial operations · milk procurement network build-out · production planning, execution and product development · marketing, distribution and business expansion · recruitment and leadership of the operations team · plant maintenance, utilities and P&L ownership.

Commercial structures open for discussion: Operations & Management Agreement · Performance-linked Profit Participation · Revenue Sharing · Long-term Strategic Association · Joint Venture · Equity Participation at a Later Stage.

This is not a salaried position. It is a long-term, performance-oriented commercial arrangement in which value created by the business is shared fairly among all stakeholders.

THE OPPORTUNITY IN BRIEF

Why This Asset. Why This Location.

- **Rich milk catchment:** the Sambhal-Moradabad-Budaun belt is one of India's densest buffalo and cow milk regions; village-level procurement with a dock testing laboratory is already established.
- **NCR market access:** Delhi-NCR lies ~160 km away with Bahjoi Railway Station 3-4 km from the plant gate - evening-packed SKUs reach NCR distribution by early morning.
- **Ample plant land:** 23,288 sq. m campus, only 40-50% built - future verticals (UHT, value-added dahi, ice cream, milk powder) need no fresh land acquisition.
- **Export & domestic potential:** ghee, paneer and long-shelf-life SKUs for Middle East and diaspora markets, alongside a deep UP-NCR domestic runway.
- **Day-one operability:** licences current, machinery installed, core team recruited - the business needs leadership, not paperwork.

Who Should Respond

We invite Expressions of Interest from **senior dairy professionals; former CEOs, COOs and Plant Heads; dairy entrepreneurs; experienced dairy management teams; dairy consulting organisations; and Operations & Management companies.**

Professionals with leadership experience at organisations such as **Amul (GCMMF), Mother Dairy, NDDB, Banas Dairy, Hatsun Agro, Heritage Foods, Dodla Dairy, Parag Milk Foods, Milky Mist, Schreiber Dynamix, Verka and Milma** are encouraged to respond.

Submitting Your Expression of Interest

Your EOI should include:

1. Professional Profile
2. Organisation Profile (if applicable)
3. Relevant Experience & Dairy Plants Managed
4. Business Philosophy
5. Proposed Commercial Structure
6. Expected Support from the Company
